Why Should You Be Valedictorian?

"My name is Corry Faulkner and I would be honoured to represent my fellow classmates as their Valedictorian at our graduation ceremony in June. Graduation is a time to celebrate our accomplishments and prepare us for what the future might hold. Upon arriving at Nipissing University I was unsure what to expect. But, when I entered the classroom on the first day of school, I knew it felt like home. I feel so lucky to have been surrounded by such amazing people that made every day exciting and memorable. This school provided me with a chance to make many incredible friends and memories I will cherish forever. I remain grateful to say I will be graduating alongside so many amazing individuals and future educators. Being the Valedictorian in a graduation ceremony is the utmost honour and I strongly believe I would do an excellent job representing my fellow classmates."

Why Should You Be Valedictorian? (cont'd)

I remain thankful for what I have learned at Nipissing University and I want to take this opportunity to give back to the school that provided me with an abundance of knowledge, love, and support. Looking back on the past two years, I believe that Nipissing has prepared us to take on whatever challenges or opportunities we may face and I am grateful to have spent time working with such skilled and passionate individuals.

Thank you,
Corry Faulkner
