

Junior Refactor Developer - Intern

Why choose the Sault?

Located at the heart of the Great Lakes, Sault Ste. Marie, Ontario is a beautiful waterfront city with a population of approximately 75,000. "The Soo" is rich in history, culture and adventure, boasting unmatched world class outdoor experiences throughout all four seasons. The bustling art sectors, museums, natural environment and numerous local eateries set our city apart from others. Summer and winter festivals are celebrated in a safe and affordable place to live. With easy commute times from home to work, and a high quality and vibrant lifestyle, Sault Ste. Marie provides a "home" experience with endless opportunities to discover.

Who we are searching for:

SSMIC is seeking a **Junior Refactor Developer Intern** to support SSMIC's software development projects. This is a one-year contract position.

ELIGIBILITY:

- Unemployed or underemployed youth (under the age of 30) who have graduated with a degree or diploma from a post secondary institution within the last three years, are legally entitled to work in Canada, and have not been previously employed under a FedNor Youth Internship funding agreement, or other federal or provincial internship with pay for a period of six (6) months or more.

DUTIES & RESPONSIBILITIES:

- Refactoring existing web technologies including the Vulnerable Persons Registry to enhance and modernize older code as well as adding new functionality in web products.
- Assist in the overall software development cycle in research, requirements gathering and project planning.

SKILLS & QUALIFICATIONS:

- University or college graduate in Computer Programming who has graduated within the last three years from an accredited college or university.
- The candidate must be a graduate of a post-secondary degree or diploma program.
- The position will be a first full-time employment in the candidate's field of study.

ADDITIONAL QUALIFICATIONS:

- Experience working in a software development environment using HTML, JavaScript, CSS, bootstrap and C#
- Exceptional oral communication skills
- Demonstrate ability to work in a team environment
- Strong problem-solving skills
- Ability to coordinate multiple deadline-driven tasks

Why your opportunity begins here:

As a non-profit organization, the **Sault Ste. Marie Innovation Centre (SSMIC)** operates at the cutting edge of the science and tech sector. With a uniquely global perspective, SSMIC is made up of multiple groups that incorporate business, agriculture, lottery and gaming, business development and acceleration, youth engagement, software development, and GIS mapping. Our goal is to encourage the advancement and innovative application of technology to further economic development in the community. We are an organization comprised of 45 diverse, driven and self-motivated individuals who are looking to have you join our team.

Salary: This full-time position is partially funded by FedNor's Northern Ontario Development Program.

Interested candidates should submit a cover letter and resume before **August 20, 2018 by 5:00 p.m.** to: careers@ssmic.com
