Madison (Alyxis) Watson

Why Should You Be Valedictorian?

"I should be this year's Valedictorian for Applied and Professional Studies. I have been a strong member of the Nipissing community and have a strong academic standing. During my time at Nipissing I have been a dedicated student assisting professors in any possible way they saw fit, and working to continue the incredible Nipissing experience for fellow students. I pride myself on getting involved in the Nipissing community and creating the best experience for other students who have decided to make Nipissing their home. I have worked hard to be a student leader through volunteering, I feel as though it is important to give back to the community that has helped me to develop and grow into the person I currently am. I have been given the privilege of getting to know many different students in many different programs and feel as though I would be an ideal candidate to speak on their behalf. If chosen, I would be honoured to be able to speak on behalf of the my graduating class."
