Why Should You Be Valedictorian?

"After transferring from another institution and spending four years at Nipissing, I can guarantee from comparison that our school is a special place. Over these four years, I have had the opportunity to fully immerse myself in everything our institution has to offer through academics and research as a student, and athletics as both a past member and now current assistant coach of the women's basketball team. I can say with utmost certainty that Nipissing University has been the single largest contributor to not only my professional development, but also to my personal life development. Based on this being not only my personal belief but also the belief of my incredible peers from everything I have been a member of at Nipissing, I would be honoured to have the opportunity to share my thoughts and reflections on this amazing institution on behalf of my graduating class. I also hope and believe that my prior experience in these areas would make me a valued candidate for valedictorian."
