

My name is Charlotte Foster and I am running for the VP Advocacy and Awareness. I am in my second year here at Nipissing University. As a member of the NUSU board of directors, residence don, and a member of various NUSU clubs, I believe I have the capabilities to fulfill the roles of VP A&A and be able to serve the ever-changing student population.

My goals are to create a professional, inclusive, and approachable environment for all students to feel comfortable to share their ideas, bring awareness, or gain the support of the student union for various causes. For the number of committees that the VP is responsible for, I plan to include input from the North Bay community, reaching out to NUSU clubs and the student population for input for programs, and awareness campaigns. Finally, to improve communications I plan on posting office hours for the fellow VP's around their class schedules to ensure that students have a better chance of seeing the VP they need. I also plan to be organized, and dependable for all online communications, and to make it easier for students to know what is happening on campus, and to ensure their voices are heard in a timely, efficient, and effective manner.
