

NUSU 2019 Elections - Platform

Candidate: Kayla Greenman

Position: VP Student Life

Date: January 18, 2019

To Nipissing University Students,

I have decided to take part in the journey of campaigning towards a position within Nipissing University Student Council. I have been involved with NUSU previously and would be honoured to do so once again. I have highlighted my platform below, listing some of the impacts I would like to have on the students at Nipissing University.

- Student inclusivity and understanding of the clubs and extra-curricular events at Nipissing
  - More incentive for clubs to have student involvement, resulting in more extra-curricular events
  - Higher levels of NUSU involvement within clubs including regular communication
  - Require clubs to be more inclusive during individual election periods
  - Assist clubs in proper advertising techniques and offer help as much as possible
  
- Accessibility to resume/CV enhancing opportunities
  - Helping students understand how opportunities will assist them in the future
  - Greater access to resources for students to become involved, or find ways to be involved
  - Offer my own advice and guidance when helping students choose extra-curricular activities that work for them
  
- Greater organization of the roll VP Student Life in the following aspects:
  - Smooth execution and preparation of FROSH week
  - Presence within clubs throughout the academic year
  - Food bank events to increase donations as well as student usage
  - Large calendar in high traffic area to increase awareness of events

I hope to have the opportunity to put my platform into action, and be given the chance to represent the Nipissing University student body over the course of the 2019/2020 school year.

Sincerely,

Kayla Greenman
