

NUSU Director-at-Large Election

Candidate: Zachary Cooper

Position: Director-at-Large

Hello Nipissing University Students,

I have decided to run for a position on the Nipissing University Student Union Board of Directors. I am a third year Criminal Justice major who has already been involved in the school through the running of the intermural program as a member of Nipissing University Student Athletic Coordinators or NUSAC. I hope that by becoming a member of the NUSU Board of Directors I am able to continue my involvement with the amazing school community we have here at Nipissing. Below I have outlined my platform as well as some goals I hope to accomplish while apart of the NUSU Board.

- Accountability
 - NUSU has a nearly 2,000,000 budget, much of which comes from the fees paid by the student body. While a member of the board I will make sure this money is used in the best possible way to better the lives of students on campus.
 - I will also make sure the NUSU executives as well as members of the board, myself included, are held accountable for the actions we take while in office.
- Professionalism
 - I while a member of the Board will act professionally and always in the best interest of the student body. I will also hold my colleges as well as the NUSU executives to the same standard.
 - I will also work effectively with my colleges to better student life here at Nipissing.
- Environmental Policies
 - As a member of the board I intend to help NUSU in implementing environmental policies that will not only help the planet but also help lower their operational costs saving money that can then be spent to better the lives of students on campus.

I hope you all consider me for a Director-at-Large position in this year's election.

Sincerely,

Zachary Cooper.
